Wireless digital proprietary IP phone

Platan IP-T216CGW

Platan IP-T216CGW wireless digital proprietary IP phone is an elegant phone for demanding users. Large colour display, two-colour speed dial memory keys, possibility of using up to 5 Platan EXT-244CG expansion modules and multiple SIP accounts make this model a perfect solution for managers, secretaries and dispatchers. Embedded switch with two 1 Gbit Ethernet ports ensures fast data transmission between the device and the computer connected. Wireless Wi-Fi communication enhances the freedom of choosing the phone's location and improves the esthetics of its surroundings.

- *Wireless Wi-Fi communication*
- *Elegant design, comfort of use*
- *Large colour display*
- *Local and global phonebooks*
- *Automatic configuration (auto provision)*
- *Switch with two 1 Gbit Ethernet ports*
- *32 SIP accounts*
- *Power over Ethernet (PoE)*
- *Support of 5 Platan EXT-244CG expansion modules*

Wireless communication

Stable wireless communication with the use of two-band Wi-Fi network allows to put the phone in almost any place. It improves the esthetics of its surroundings due to the smaller quantity of wires. The built-in antenna's gain ensures the perfect call quality.

Intuitive use

The work is facilitated by: large colour display, state and status notification, programmable keys to access the most useful features and SIP accounts and legible information. Speakerphone and support of headsets ensure the comfort regardless of how the phone is used.

Quick contact

The phonebooks, contact groups, memory keys and dialling assistant help to identify the callers and to establish connections quickly. The contacts in the local phonebook may be enriched with photos. Every Platan EXT-244CG expansion module out of even five helps to contact 72 numbers easily.

Easy settings

The Platan IP-T216CGW phone settings can be changed by phone or web interface. The configuration can be sent to the phone automatically from the PBX server – thanks to the auto provision feature, what together with the Power over Ethernet is particularly useful when installing many devices.

Features and services

Platan IP-T216CGW

SIP accounts	32

- 2.4 GHz, 5 GHz bands, 5 dB antenna's gain.

Audio parameters

- Audio codecs: G.711 aLaw, G.711 μLaw, G.722 (broadband), L16 PCM (broadband), G.726, G.729, iLBC.
- Echo cancellation.
- VAD – Voice Activity Detection.
- CNG – Comfort Noise Generation.

Outputs

- Ethernet: 2 × 1000 Mbps (one port to connect the console).
- Headset: 1 × RJ-9.
- EHS headset: 1 × RJ-45
- Handset: 1 × RJ-9.

Power supply

- From PoE (Power over Ethernet): IEEE 802.3af, Class 2 compliant.
- DC 5 V power adapter; 2 A.

Other

- Power consumption: standby 1 W, working 2.2 W.
- Humidity: 10–90%.
- Temperature: 0°C–50°C.
- Dimensions with handset (width × length × height): 218 × 207 × 166 mm, weight: circa 1 kg.
- Possibility of connecting up to 5 Platan EXT-244CG expansion modules.

Platan is a leading Polish producer of IP PBX Telephone Systems and PBX Servers. Thanks to our comprehensive offer, we are capable of satisfying the most sophisticated requirements of a wide range of customers, from small and medium companies to large enterprises, public offices and institutions, as well as rescue and uniformed services.

We have been ranking among the most innovative players on the Polish electronic market since 1985, offering telecommunication and radio communication solutions. As many as over one million users are already using Platan products.

Systems developed by Platan are fully based on our own technical know-how. Thanks to our own design offices and highly qualified specialists in telecommunication, IT and electronics, Platan provides solutions employing the latest global trends and technologies. All our products are tailored to market needs and expectations.

Platan offers also the public address systems, including the Megaphone Broadcasting Network designed for railways and voice alarm systems for public utilities.

We have been awarded ISO 9001 Quality Management System Certificate for design, manufacture, sale and service of telecommunication equipment, which provides the evidence of our compliance with quality standards.
